

## **Northeast Animal Shelter is desperately seeking qualified foster homes!**

Many pregnant and nursing mothers are brought to our shelter. Sometimes a dog or cat that comes to us may need surgery and a quiet environment in which to recuperate. Or a litter of tiny kittens might have been abandoned and they desperately need round-the-clock care.

Our Foster Care Program helps these animals by providing volunteer caregivers who are willing to open their homes to needy animals. Our foster homes offer a haven for recovery from an injury or illness, surgery, or time before a pet is considered “adoptable”. It requires a lot of dedication, but the rewards are immeasurable!

Our Foster Care Program saves lives. For an experience that will change your life, please fill out a Foster Care application at [www.northeastanimalshelter.org](http://www.northeastanimalshelter.org) or call 978-745-9888
